

Case Study Outline Example

1. Introduction

- Brief overview of the subject
- Purpose of the case study
- Key issues to be addressed

2. Background

- Background information about the company/individual
- Industry context
- Relevant facts and data

3. Challenges

- Main problems or challenges faced
- Factors contributing to the issues

4. Solutions

- Actions taken to address the challenges
- Strategies implemented
- Description of process

5. Results

- Outcomes of the implemented solutions
- Supporting data and analysis
- Benefits and improvements

6. Conclusion

- Summary of findings
- Lessons learned
- Recommendations

7. References

- Sources used in the case study
