

# Technology Infrastructure Review Document

## 1. Overview

[Provide a general summary of the technology infrastructure review's purpose, scope, and objectives.]

## 2. Current Infrastructure Summary

### Hardware

- Servers:
- Workstations:
- Network Devices:
- Storage:

### Software

- Operating Systems:
- Applications:
- Licenses:

### Network Topology

[Insert a description or diagram of network structure, connectivity, and segmentation.]

## 3. Assessment Criteria

- Performance
- Scalability
- Reliability and Availability
- Security
- Compliance
- Maintainability

## 4. Findings

Area	Current State	Observations	Risks
Servers			
Network			
Storage			
Software			

## 5. Recommendations

1. Short-Term Improvements
2. Long-Term Strategic Initiatives
3. Security Enhancements
4. Future-Proofing Measures

## 6. Action Plan & Next Steps

- [Action 1]
- [Action 2]
- [Action 3]

Responsible Parties: \_\_\_\_\_

Timeline: \_\_\_\_\_

## 7. Appendices

- Inventory Lists
- Network Diagrams
- Supporting Assessments
