

Stakeholder Analysis Framework

Operations Consulting Feasibility

Stakeholder	Role/Responsibility	Interest	Influence	Current Attitude	Potential Impact	Engagement Strategy

** Fill each row with key stakeholders relevant to the operations consulting project.*

** Examples: Internal Staff, Senior Management, Clients, Partners, Regulators, etc.*

Key Considerations

- Identify all parties who may be affected by or have influence over the project’s feasibility.
- Assess stakeholders’ levels of interest and influence.
- Evaluate current attitudes (supportive, neutral, or resistant).
- Plan specific engagement or communication approaches for each stakeholder group.

Summary & Next Steps

- Review and validate the stakeholder list with project sponsors.
- Update the framework as project information evolves.
- Initiate engagement based on identified strategies.
