**Re: Referral for Neurology Consultation**

**Patient:** John Doe

**Date of Birth:** March 5, 1972

**Medical Record #:** 987654

Dear Dr. Brown,

I am referring the above-named patient for neurological evaluation and management.

**Reason for Referral:**

Mr. Doe has experienced recurrent episodes of left-sided weakness and slurred speech over the past month. The symptoms appear to last for several minutes and resolve spontaneously. He denies associated headache, visual changes, or loss of consciousness.

**Relevant Medical History:**

- Hypertension
- Type 2 Diabetes Mellitus
- Hyperlipidemia

**Medications:**

- Lisinopril 10 mg once daily
- Metformin 500 mg twice daily
- Atorvastatin 20 mg once daily

**Examination Findings:**

Neurologic examination is non-focal at today's visit. Blood pressure 138/84 mmHg. Cardiovascular and general examination are unremarkable.

**Investigations performed:**

- CBC, metabolic panel â€“ within normal limits
- Recent head CT â€“ no acute findings

Please evaluate and advise on further diagnosis and management. I would appreciate your recommendations and ongoing care for Mr. Doe regarding his neurological symptoms.

Sincerely,

Dr. Jane Smith
