

Case Study Research Report: Sample Title

Student Name
Department or Course
University Name
Date of Presentation

Abstract

(Brief summary of the case study, including the problem, methodology, main findings, and significance. Usually 100-200 words.)

Introduction

(Present the background of the study, purpose, and key questions or objectives. Explain why the case is of interest.)

Case Description

(Describe the case context, setting, participants, and any relevant historical or situational details.)

Methodology

- Research design (qualitative, quantitative, or mixed)
- Data collection methods (e.g., interviews, documents, observations)
- Data analysis procedures

Findings

(Present the main findings derived from data. Use subheadings if necessary.)

Theme	Evidence
Example Theme 1	Summary of supporting data or quotations
Example Theme 2	Summary of supporting data or quotations

Discussion

(Interpret the findings and discuss their implications in relation to the research questions and existing literature.)

Conclusion

(Summarize the key points and findings. Highlight the significance of the case study and any recommendations.)
