

# Geography Case Study Assignment

Student Name:		Date:	
Grade/Level:		Teacher:	
Title of Case Study:			

## 1. Introduction

Briefly describe the case study topic and explain its relevance in the context of geography.

## 2. Location and Background

- Describe the geographic location (include map/sketch if required).
- State key background information (climate, physical features, demographics, etc.).

## 3. Main Issue or Problem

Clearly state the main geographical issue, problem, or focus of the case study.

## 4. Causes

1. List and explain the main causes or contributing factors of the issue.
2. Provide evidence or data where possible.

## 5. Effects/Impacts

- Describe the social, economic, and environmental impacts (as relevant).
- Include short-term and long-term effects.

## 6. Solutions/Management Strategies

Discuss what is being done, or can be done, to address or manage the issue. Mention both local and wider-scale efforts.

## 7. Evaluation/Conclusion

- Evaluate the effectiveness of the solutions or responses.
- State your conclusion about the case study topic.
- Suggest any recommendations for the future.

## 8. References

List sources of information, data, and images used.

## Appendix (optional)

Add any relevant maps, charts, tables, or additional material.
