

Research Data Sharing Consent Form

Institution: _____
Research Project Title: _____
Principal Investigator: _____
Contact Information: _____

Introduction

You are being invited to participate in a research study. The purpose of this form is to seek your consent to collect, use, and potentially share your research data for academic and educational purposes.

Data Collection and Use

Your data will be collected as part of this project and may include information such as survey responses, interview transcripts, or other research materials. All data will be handled confidentially and used solely for the purposes of this research.

Data Sharing and Confidentiality

The data collected may be shared with authorized researchers, presented in publications, or deposited in research data repositories for educational use. All personally identifiable information will be removed or anonymized before sharing.

Voluntary Participation

Participation is voluntary, and you may withdraw your consent at any time without any consequences.

Consent

Please indicate your consent by checking the box below:

☐ I have read and understood the above information. I voluntarily consent to the collection, use, and sharing of my data for academic research purposes.
