RESEARCH INTERESTS

- Computational Biology
- Genomics and Bioinformatics
- Machine Learning in Healthcare

EDUCATION

Ph.D. in Computational Biology

University of Science

2016 â€" 2020

B.Sc. in Bioinformatics

Tech Institute

2012 â€" 2016

PROFESSIONAL EXPERIENCE

Postdoctoral Researcher

BioTech Research Center

Project: Integrative Analysis of Multi-omics Data

2020 â€" Present

Research Assistant

University of Science

2018 â€" 2020

SELECTED PUBLICATIONS

- **Doe J, Smith A**. (2022) Integrative genomics for personalized medicine. *Science Journal*.
- **Doe J, Brown B, Lee C**. (2020) Machine learning applications in disease prediction. *Bioinformatics Letters*.

GRANTS & AWARDS

- Postdoctoral Fellowship, Science Foundation, 2021
- Best Paper Award, Computational Biology Conference, 2019

SKILLS

- Python, R, MATLAB
- Data Analysis & Visualization
- Statistical Modeling
- Scientific Communication
