Code Review Findings and Recommendations Report

Date: [YYYY-MM-DD]

Project: [Project Name]

Reviewed By: [Reviewer Name(s)]

---

1. Overview

This report summarizes the findings from the recent code review conducted for the project. It highlights identified issues, categorizes them by severity, and provides actionable recommendations.

2. Summary of Findings

Severity	Count	Description
Critical	[#]	Issues that may cause system failure, security risks, or major functional defects.
Major	[#]	Significant problems that could affect maintainability or reliability.
Minor	[#]	Best practices, code style, or recommendations for future improvements.

3. Detailed Findings

3.1 Critical

- **[Issue Title]**
  Description: [Brief description of critical issue]
  Location: [File/Function/Line]
  Recommendation: [Recommended solution or action]

3.2 Major

- **[Issue Title]**
  Description: [Brief description of major issue]
  Location: [File/Function/Line]
  Recommendation: [Recommended solution or action]

3.3 Minor

- **[Issue Title]**
  Description: [Brief description of minor issue]
  Location: [File/Function/Line]
  Recommendation: [Recommended solution or action]

4. General Recommendations

- [General recommendation 1]
- [General recommendation 2]

---

5. Conclusion

Remediation of the identified issues is recommended to ensure code quality, maintainability, and security. Please refer to the detailed findings and recommendations for further action.
