

# API Version Release Notes

**Product:** Acme SaaS Integration API **Document Version:** 1.0 **Last Updated:** 2024-06-10

## Release History

v2.2.0 2024-06-10

### New Features

- Added `/events/subscribe` endpoint to support webhook subscriptions.
- API responses now include a `traceId` for improved tracking.

### Improvements

- Increased the maximum payload size for `/files/upload` to 20MB.
- Enhanced OAuth 2.0 token refresh error messages.

### Bug Fixes

- Fixed pagination bug in `/contacts/list` where `limit` was ignored if set to 100.
- Resolved rare timeout error on `/data/sync` endpoint under heavy load.

### Deprecations

- `/notifications/send` endpoint is deprecated and will be removed in v3.0.0.

### Notes

- Please refer to the full `OpenAPI` documentation for updated schemas.

---

v2.1.1 2024-05-17

### Bug Fixes

- Fixed issue with missing `userId` parameter in response payloads.
- Updated response codes for failed authentication attempts to `401`.

---

v2.1.0 2024-04-25

### New Features

- Introduced `/users/batch-update` endpoint for bulk operations.

### Improvements

- API response times improved by 30% across endpoints.
