

Cloud Application Feature Specification Outline

1. Introduction

- Purpose
- Scope
- Stakeholders
- Definitions & Acronyms

2. Product Overview

- Summary
- Key Objectives
- Target Users

3. Functional Requirements

1. User Management
 - Sign Up / Sign In
 - User Roles and Permissions
2. Data Management
 - Data Upload/Download
 - Data Synchronization
3. Collaboration
 - Sharing
 - Notifications
 - Comments/Feedback
4. Reporting & Analytics
 - Dashboard
 - Export Reports

4. Non-Functional Requirements

- Performance
- Scalability
- Availability
- Security
- Compliance
- Localization
- Accessibility

5. Technical Specifications

- Supported Platforms
- API Integrations
- Architecture Overview
- Storage Solutions

6. User Interface

- Wireframe References
- User Flows
- Design Principles

7. Acceptance Criteria

- Test Scenarios
- Success Metrics

8. Assumptions & Dependencies

- Third-party Services
- External APIs
- Integration Requirements

9. Appendix

- Glossary
- References
- Revision History
