Smart Smoke Detector Installation Instructions

1. Package Contents

- Smart Smoke Detector Unit
- Mounting Bracket
- Screws & Anchors
- Quick Start Guide
- Batteries (if applicable)

2. Tools Needed

- Drill or screwdriver
- Pencil
- Ladder (if needed)

3. Choose a Location

Install the detector in accordance with local building codes. Recommended placements:

- On the ceiling, at least 10 feet away from cooking appliances
- In hallways and sleeping areas
- Avoid corners, vents, and windows

4. Installation Steps

1. Mark the screw holes on the ceiling or wall using the mounting bracket as a guide.
2. Drill holes at the marked points and insert anchors if needed.
3. Secure the mounting bracket using the provided screws.
4. Insert the batteries into the smoke detector (if required).
5. Attach the smoke detector to the mounting bracket by twisting or clicking it into place.

5. Connect to Wi-Fi and App

1. Download and open the manufacturer's app on your smartphone.
2. Follow the on-screen instructions to add a new device.
3. Ensure your phone is connected to your home Wi-Fi network.
4. Scan the QR code on the detector or input the serial number if required.
5. Complete the device setup as guided by the app.

6. Test the Detector

- Press the test button on the detector until you hear the alarm.
- Check app notifications for confirmation of successful operation.

7. Maintenance

- Test the detector monthly using the test button.
- Replace batteries once a year or as prompted by the app.
- Clean the detector using a vacuum or dry cloth every 6 months.
