

Water Resource Impact Analysis Template

Urban Transport Projects

1. Project Information

Project Name	
Location	
Project Description	
Prepared By	
Date	

2. Existing Water Resource Conditions

Surface Water Bodies	
Groundwater Resources	
Existing Water Uses	
Quality Status (if available)	

3. Project Activities and Potential Impacts

Activity	Potential Impact

4. Impact Assessment

Type of Impact	Significance (High/Medium/Low)	Comments
----------------	--------------------------------	----------

Surface Water		
Groundwater		
Water Quality		

5. Mitigation Measures

Impact	Mitigation Measure	Responsible Party

6. Monitoring and Follow-up

Parameter	Method	Frequency	Responsible Agency

7. Conclusion
