

Injection Molding Equipment Maintenance Calendar

P: Preventive **C:** Corrective **S:** Safety

Month						
Equipment						
Task						
Type						
Responsible						
Status						
January	Molding Machine #1	Lubricate moving parts	P	Maintenance Tech	Scheduled	
	Chiller Unit		Clean filters	P	Utility Crew	Scheduled
	Mold #1205		Inspect for wear and cracks	P	Tooling Engineer	Scheduled
February	Conveyor Belt	Belt tension adjustment	P	Maintenance Tech	Scheduled	
	Molding Machine #2		Test emergency stop	S	Operator	Scheduled
March	Dryer	Replace desiccant beads	C	Maintenance Tech	Pending	
	Mold #1311		Thorough cleaning	P	Tooling Engineer	Scheduled
April	Molding Machine #3	Check hydraulic fluid level	P	Maintenance Tech	Scheduled	
Mold #1205		Polish core & cavity	P	Tooling Engineer	Scheduled	

Notes

- Frequency and tasks may be adjusted based on equipment manual and usage rate.
- Status to be updated after each task completion.
- Safety checks must be logged separately in compliance journals.
